Higher Tier

Paper 3 Calculator

## Time allowed: 1 hour 30 minutes

#### Materials

For this paper you must have:

- a calculator
- mathematical instruments.

#### Instructions

- Use black ink or black ball-point pen. Draw diagrams in pencil.
- Fill in the boxes at the top of this page.
- Answer all questions.
- You must answer the questions in the spaces provided. Do not write outside the box around each page or on blank pages.
- If you need extra space for your answer(s), use the lined pages at the end of this book. Write the question number against your answer(s).
- Do all rough work in this book. Cross through any work you do not want to be marked.

#### Information

- The marks for questions are shown in brackets.
- The maximum mark for this paper is 80.
- You may ask for more answer paper, graph paper and tracing paper. These must be tagged securely to this answer book.

### Advice

In all calculations, show clearly how you work out your answer.

IB/M/Jun21/E8

8300/3H

	Answer <b>all</b> qu	uestions in the spa	aces provided.			Do not write outside the box
1	<i>b</i> is 3 more than the square ro Circle the correct equation. $b = \sqrt{a} + 3$	bot of $a$ . $b = \sqrt{a} - 3$	$b = \sqrt{a+3}$	$b = \sqrt{a-3}$	[1 mark]	
2	Circle the largest number. 0.5	0.55	0.545	0.545	[1 mark]	
3	A line has equation $3y = 3x$ Circle the coordinates of the in (0, 1)	x - 2 ntercept of the line (0, -1)	e with the <i>y</i> -axis. $\left(0, \frac{2}{3}\right)$	$\left(0,-\frac{2}{3}\right)$	[1 mark]	

4	Factorise $r^2 - 64$				Do not write outside the box
-	Circle vour answer.				
				[1 mark]	
	$(x + 8)^2$	$(x - 8)^2$	(x + 8)(x - 8)	x(x-64)	
5	Six positive numbers have	2			
5	a mean of 10	-			
	a range of 19				
	Four of the numbers are	12 7	15 3		
	Work out the other two nu	imbers.		[3 marks]	
	Answer		and		
					7

At a country park there is a house, a museum and a garden. The table shows the prices per person to visit the park.

	Price per person
Garden only	Free
House and museum	£12.50
House only	£8
Museum only	£7

One day, 480 people visit the park.

67 visit the garden only.

40% visit the house **and** the museum.

 $\frac{3}{8}$  visit the house **only**.

The rest visit the museum **only**.

In total, how much do the 480 people pay to visit the park?

You may use the Venn diagram to help you.
