Mathematics

Unit 1

Tuesday 9 November 2010 9.00 am to 10.00 am

For this paper you must have:

- a calculator
- mathematical instruments.

Time allowed

• 1 hour

Instructions

- Use black ink or black ball-point pen. Draw diagrams in pencil.
- Fill in the boxes at the top of this page.
- Answer all questions.
- You must answer the questions in the spaces provided. Do not write outside the box around each page or on blank pages.
- Do all rough work in this book.

Information

- The marks for questions are shown in brackets.
- The maximum mark for this paper is 54.
- The quality of your written communication is specifically assessed in questions 2, 4 and 7. These questions are indicated with an asterisk (*)
- You may ask for more answer paper and graph paper. These must be tagged securely to this answer booklet.

Advice

• In all calculations, show clearly how you work out your answer.

Ar			(2 mar			
Ar			(2 mar			

1 (c) In Manchester for the 40 days

- 16 days are sunny
- 50% of the days have rain
- there is no snow.

1 (c) (i) Complete the table for Manchester.

Weather	Frequency
Sun	
Rain	
Snow	
Fog	
	Total = 40

(3 marks)

1 (c) (ii) One of the 40 days in Manchester is chosen at random. Use a suitable probability **word** to complete the sentences.

The chance of choosing a day with snow is.....

The chance of choosing a day with rain is

(2 marks)

3	A company makes bags of toffees.							
	The company checks that the bags contain 50 toffees.							
3 (a)	The number of toffees in a sample of 11 bags is							
	51 50 51 51 52 43 50 50 51 51 50							
3 (a) (i)	Write down the mode.							
	Answer							
3 (a) (ii)	Work out the median. You must show your working.							
	Answer							
3 (a) (iii)	Work out the mean.							
	Answer							
3 (b)	The company claims there are 50 toffees in a bag.							
3 (b) (i)	Give a reason why this claim seems fair.							
	(1 mark)							
3 (b) (ii)	Give a reason why this claim seems unfair.							

5

6 (a)	A bag contains 3 red, 5 white and 8 blue counters. One counter is chosen at random.	
	What is the probability of choosing a blue counter?	
	Answer	(2 marks)
6 (b)	A different bag contains only black counters, pink counters and white count When one counter is chosen at random, each colour is equally likely.	ers.
	Write down two possible values for the total number of counters in this bag	
	Answer and	(2 marks)
6 (c)	Another bag contains only green counters and yellow counters. There are more than 10 counters in the bag. When one counter is chosen at random, the probability of choosing a green counter is $\frac{3}{4}$	
	Write down two possible values for the total number of counters in this bag	
	Answer and	(2 marks)

7*	This poster is put up in a school dinner hall.						
	Coming soon						
	New Healthy Eating menu						
	The headteacher thinks the number of students who eat school dinners will increase by 25%.						
7 (a)	Design an observation sheet the headteacher can use to see if she is right.						
		(2 marks)					
7 (b)	The number of students who eat school dinners increases from 78 to 91.						
	Is the headteacher correct? Show clearly how you decide.						
		(3 marks)
