8 The diagram shows a cross-section of Rafa's new swimming pool.

The swimming pool has two identical sides in the shape of a trapezium.

All other sides are rectangular.

The length of the pool is 12 m.

The width of the pool is 4 m.

The depth of the pool is 2.1 m at the deep end and 1.1 m at the shallow end.

Rafa fills the pool up with water from a hosepipe.

The surface of the water is to be 10 cm from the top of the pool.

Rafa turns on the hosepipe at 09 00 on Monday and water fills at a rate of 200 ml per second.

When the pool is full, Rafa turns off the tap. At what time will this be?
